

# Nicole Blin

Santiago, Chile | (413) 2750682 | [nblin@umass.edu](mailto:nblin@umass.edu) or [ndblin@gmail.com](mailto:ndblin@gmail.com)

## EDUCATION

### Pontificia Universidad Católica de Chile | Chile

*Ph.D. in Civil Engineering*

2023

*M.S. in Civil Engineering*

2018

*B.S. Civil Engineering*

2016

*Major: Hydraulic Engineering | Minor: Hydrogeology*

## RESEARCH EXPERIENCE

### Pontificia Universidad Católica de Chile, Undergraduate Research | Chile

2015

- Investigation of hydraulic property parameters in stratified soils using HYPROP and HYDRUS 2D.
- Field campaign to collect temperature–depth profiles from boreholes in the Atacama Desert, as part of a project led by researchers from Université du Québec à Montréal and St. Francis Xavier University, Canada.

### Pontificia Universidad Católica de Chile, M.S. Thesis | Chile

2016 – 2018

- Development of conceptual model of an undeveloped basin in the Andean Altiplano (northern Chile, Atacama Desert).
- Construction of a numerical groundwater flow model using ModelMuse.
- Statistical downscaling of climatic forcing using multiple CMIP5 models to drive the groundwater flow model under different future scenarios.

### Pontificia Universidad Católica de Chile, Ph.D. Thesis | Chile

2018 – 2022

- Impacts of climate change on groundwater in an Andean basin under different future scenarios from CMIP5.
- Calibration of groundwater flow models using remote -derived evapotranspiration in the basin using the Earth Engine Evapotranspiration Flux (EEFlux) tool.
- Statistical downscaling of climatic forcing using multiple CMIP6 models to drive the groundwater flow model under different future scenarios to assess climate change impacts on

### University at Buffalo, Researcher | Ph.D. Thesis Internship | Buffalo, New York

June – August 2021

- Statistical downscaling of climate models of CMIP6 to assess potential impacts of climate change over the Western New York aquifer.

## CONFERENCE PRESENTATIONS

1. **Blin, N.**, Soonthornrangsang, J., M., Lowry, C., Gironás, J., Chadwick, C., Suárez, F. Assessing potential impacts of climate change on the Western New York aquifer under two CMIP6 scenarios. AGU Fall Meeting 2021. New Orleans, LA. 13-17 December 2021. Oral Presentation.
2. **Blin, N.** & Suárez, F. Improving calibration of numerical groundwater models in arid zones using Earth Engine Evapotranspiration Flux and PEST. AGU Fall Meeting 2021. New Orleans, LA. 13-17 December 2021. Poster Presentation.
3. **Blin, N.**, Hausner, M., Lowry, C., Leray, S., Suárez, F. Impacts of climate change on the Huasco salt flat (North of Chile)- Insights from a hydrological and hydrogeological perspective. EGU 2019 General Assembly. Vienna, Austria. April 7-12, 2019. Oral Presentation.
4. **Blin, N.**, Hausner, M.B., Suárez, F. Evaluating groundwater recharge variations under climate change in an endorheic basin of the Andean plateau. AGU 2017 Fall Meeting. New Orleans, Louisiana, USA. December 11-15, 2017. Poster Presentation.
5. **Blin, N.**, Sandoval, V.P., Suárez, F., Victorero, F., Bonilla, C., Gironás, J., Vera, S., Bustamante, W., Rojas, V., Pastén, P. (2015). The effect of layered substrates on green roof hydraulic performance. 10th Conference on sustainable development of energy, water and environment systems. Dubrovnik, Croatia. September 27-October 3, 2015. Poster Presentation.

## TEACHING EXPERIENCE

Pontificia Universidad Católica de Chile | Chile

Teaching Assistant

Course: Groundwater Pollution

2017, 2018, 2020,

2021

|   |             |
|---|-------------|
| <i>Course:</i> Groundwater  | 2017 – 2021 |
| <i>Course:</i> Groundwater (instruction in English for Pontificia Universidad Católica de Chile and University at Buffalo students) | 2018        |
| <i>Course:</i> Hydraulic Engineering  | 2019        |

## PROFESSIONAL EXPERIENCE

### **Academic:**

#### **Pontificia Universidad Católica de Chile | Chile**

Instructor | *Course: Groundwater* 2019

- In charge of designing and teaching experimental classes in the geoscience's laboratory.
- Designing and grading weekly tests.

#### **Pontificia Universidad Católica de Chile | Chile**

Project Engineer | *CORFO project* 2022

*Project name:* “Plataforma inteligente para la vigilancia de disponibilidad de agua y presencia de contaminantes emergentes y tradicionales en fuentes de agua subterránea para potabilización y riego”. Corporación de Fomento en la Producción (CORFO), Chile.

- Apply machine learning algorithms to forecast water quality in surface waters and groundwater in Southern Chile.

#### **University of Massachusetts Amherst | Amherst, MA, USA**

Postdoctoral Research Associate | *Geosciences Department* July 2023 – present

- Groundwater modeler

### **Consulting:**

#### **DICTUC | Chile**

Project Engineer 2017 – 2018

*Project name:* “Efecto de la explotación de pozos en cuenca de Coposa sobre cuencas vecinas”. DICTUC S.A. and the National Department of State Borders and Boundaries (DIFROL) of the Ministry of Foreign Affairs of Chile.

- Hydrogeological modeling of transboundary aquifer; sensitivity analysis of boundary conditions of existing models.

#### **DICTUC | Chile**

Project Engineer 2019

*Project name:* “Migración de modelos hidrogeológicos desarrollados en Visual-Modflow y Groundwater Vistas hacia su estado nativo de código MODFLOW”. Water Division (DGA) of the Ministry of Public Works of Chile.

- Migration of groundwater models developed in *VisualModflow* or *Groundwater Vistas* into native MODFLOW code.

## SKILLS & INTERESTS

### *Software and programming skills:*

- Programming: Python (Advanced), MATLAB (Advanced).
- Hydrological modeling: WEAP (Basic), SWMM (Advanced).

- Hydrogeological modeling: GroundWater Vistas (Advanced), VisualModflow (Advanced), ModelMuse (Advanced), FloPy (Advanced), GSFLOW (Intermediate), HYDRUS-1D (Intermediate), SWAT (Intermediate).
- Spatial Analysis: QGIS (Intermediate), ArcGIS (Advanced).
- Calibration: PEST (Intermediate).

*Languages:* Spanish (fluent native speaker); English (fluent, advanced oral and writing skills); French (intermediate oral and writing skills).

*Interests:* Science fiction novels, mindfulness meditation, gym, pilates, AI.
